(a) *Definitions.* The following definitions apply to the terms when used in this subpart:

(1) *Search* means all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within documents. Search for material will be done in the most efficient and least expensive manner so as to minimize costs for both the agency and the requester. Search is distinguished, moreover, from *review* of material in order to determine whether the material is exempt from disclosure. Searches may be done manually or by computer using existing programming.

(2) *Duplication* means the process of making a copy of a document necessary to respond to a Freedom of Information Act or other request. Such copies can take the form of paper or machine readable documentation (e.g., magnetic tape or disk), among others.

(3) *Review* means the process of examining documents located in response to a commercial use request to determine whether any portion of any document located is permitted to be withheld. It also includes processing any documents for disclosure, e.g., doing all that is

necessary to excise them and otherwise prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(4) *Commercial use request* means a request from or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, the agency must determine the use to which a requester will put the documents requested. Where the agency has reasonable cause to doubt the use to which a requester will put the records sought, or where that use is not clear from the request itself, the agency will seek additional clarification before assigning the request to a specific category.

(5) *Educational institution* means a preschool, a public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research.

(6) *Non-commercial scientific institution* means an institution that is not operated on a *commercial* basis as that term is referenced in paragraph (a)(4) of this section, and which is operated solely for the purpose of conducting scientific research the results of which are not intended to promote any particular product or industry.

(7) *Representative of the news media* means any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term *news* means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminators of *news*) who make their products available for purchase or subscription by the general public. These examples are not intended to be all-inclusive. As
